For Water / Wastewater:

Although this parcel is within an area that may in the future be served water and wastewater by Pasco County Utilities, per Utilities current policies will not be required to connect to the County's water and wastewater systems. Pasco County Utilities Services Branch has no objection to this site being served by septic systems.

For Solid Waste:

The provision of solid waste service is contingent upon the County receiving all permits and approvals necessary to implement and construct the County's planned disposal system improvements and facility expansions needed to serve the development; and the Developer's, and its successors or assigns, compliance with the conditions of Pasco County Code Chapter 90 and other applicable regulatory requirements.
